We propose to make a specialty of just three different lines: of shoes, at the following prices:

We have this line of Shoes made to order at one of the most reliable Factories in the East. And the fact of our large increase in the sale of these shoes enables us to buy them in large lots and direct from the manufacturers, thereby saving a profit that every one is obliged to pay who buys in small lots from regular "jobbing" houses. For this reason principally, we claim that we can furnish you with a better shoe at the above prices than you can buy at any place in the town. We will be pleased to show the line at any time whether you wish to buy or not.
